

Lazarus of Bethany

Understanding the purpose of the Lazarus of Bethany program is very important and simple. The corporate world as we know it today operates under Maritime Law and fictitious entities under statutory law. A human is considered lost of sea and can only be managed through a fictitious entity in the court system, you are lost at sea presumed dead. Same as corporations, not a living entity “fictitious entity” dead. The court systems and other systems are built to manage and control these entities and places them under self-created and imposed laws, statues, and systems to ensure compliance while operating in this dead system.

Lazarus of Bethany program is responsible for raising these dead entities into living entities and able to openly deal with living humans. All humans are born sovereign as Gods creation and can not be held in slavery, bondage legally.

Corporations, LLCs, SA etc. are created under some type of Statutory Law Created by man, so in turn these entities are fictitious and dead. Lazarus of Bethany program places the dead entity into a **LIVING SOVEREIGN TRUST**, and under the control of a Living Sovereign Human.

Now we have transformed a dead corporate statutory entity into a Living Sovereign Operating Entity, literally “**raising the dead**” and returning it back to **Gods will**.

Clarification of the “**Light**” series was built for **Human as a living sovereign contract entity to operate a family and/or dynasty trust**.

Lazarus of Bethany program mirrors the dead entity in a **living sovereign contract entity to operate in the world of commerce with Humans**.

Benefits:

1. Places the dead container into a protected sovereign entity.
2. All tangible and intangible assets are now protected outside of dead operating realms.
3. Allows immediate continuity of business operations.
4. Allows the previous dead entity to operate unnoticed as the world transition into common law.
